EDUCATION

Towson University | Towson, MD | Bachelor of Science in Information Systems

SKILLS

Tools: Figma, Figjam, Adobe, Mural, Power BI, Qualtrics, Google Analytics, JIRA

Research & Design: UX Strategy, Service Design, User Research, Stakeholder Interviews, User Surveys, Journey Mapping, Usability Testing, Heuristic Evaluation, Workshop Facilitation, Stakeholder Engagement, Executive Communication, Data Analysis, User Flows, Information Architecture, Wireframing, Rapid Prototyping, Agile, HTML, CSS, jQuery

Security Clearance: DHS CBP Public Trust

EXPERIENCE

InDev Client: U.S. Customs and Border Protection | UX Designer Dec 2025 — Current

- Improved user engagement and consistency across 5+ web and mobile applications by standardizing UX patterns and optimizing core features and workflows.
- Conducted UX audits across 5+ enterprise applications, ensuring consistency, accessibility compliance, and alignment with UX best practices.
- Established a scalable design system by developing reusable Figma UI components and governance guidelines, ensuring consistency across web, mobile, and dashboard experiences.
- Enabled data driven decision making through the design and management of KPI Power BI dashboards and reports that translated complex metrics into clear, actionable, insights for stakeholders, improving visibility, and communicating value.
- Strengthened customer relations and reduced support friction by managing high-volume communication terminals to resolve user inquiries, and guide users through complex processes.

NTT Data Client: U.S. Customs and Border Protection | UX Designer Oct 2023 — Oct 2025

- Improved the usability and accessibility of federal services by leading usability tests, heuristic evaluations, and plain language reviews across process touchpoints, reducing user errors, and increasing task completion rates.
- Streamlined service delivery by conducting field research and 20+ stakeholder interviews, mapping service blueprints and user journeys that identified systemic pain points, informed 50+ program improvements, and enhanced service delivery.
- Enhanced decision-making through survey design and analysis, leveraging Touchpoints, Qualtrics, Power BI, and Excel to translate user feedback into targeted process improvements.

- Led cross-functional workshops and co-creation sessions, aligning stakeholders and securing leadership buy-in to implement product and service improvements addressing critical pain points.
- Delivered executive level insights through presentations, case studies, and infographics, translating research into actionable strategies, enabling faster decision making.
- Led 3+ end-to-end service initiatives, developing roadmaps that aligned CX efforts with mission-critical objectives driving measurable improvements and reducing procedural bottlenecks.
- Advanced agency-wide CX maturity by creating foundational research and design frameworks, streamlining UX research, and promoting cross-agency education.
- Implemented a recommendation tracking system on Excel to monitor adoption, measure, impact, and drive accountability for service improvements, increasing follow-through and visibility into initiative outcomes.
- Developed multilingual communication materials to promote new products, services, and features, increasing awareness and adoption among targeted user groups.

Enel X | UX Designer

Oct 2022 — May 2023

- Enhanced usability of B2B SaaS dashboards by designing workflows informed by user research and validated through A/B and usability testing.
- Drove the adoption of a global design system by creating scalable Figma UI components and ensuring accessibility compliance with W3C audits across 4+ enterprise applications.
- Optimized digital experiences by developing user flows, wireframes, and prototypes to streamline multi-step administrative processes, reducing user friction.
- Partnered with engineers to adapt designs to development constraints, leveraging working knowledge of HTML/CSS to ensure seamless implementation.
- Strengthened team capacity by mentoring associate designers, fostering skill growth and promoting design best practices across projects.

Freelance | UX Designer

Aug 2021 — Sep 2021

- Built an accessible, responsive website using HTML/CSS/jQuery, that helped client secure agency representation.
- Strengthened product direction by conducting user interviews and developing detailed personas that shaped design strategy.
- Defined business, product, and user requirements during client calls, ensuring all design decisions align with strategic objectives.
